#### National Register Evaluation:

Constructed in 1950, the Miller Property is not eligible for the National Register of Historic Places. The property is not eligible under Criterion A, as research conducted indicates no association with any historic events or trends significant in the development of national, state, or local history. Historic research indicates that the property has no association with persons who have made specific contributions to history, and therefore, it does not meet Criterion B. It is not eligible under Criterion C, as it is a common building type which lacks architectural significance. The property is common of mid-twentieth century suburban residences that integrated simplified elements of popular styles into basic building configurations. The house is not a significant example of Colonial Revival design. Finally, the structure has no known potential to yield important information, and therefore, is not eligible under Criterion D.
